No.1932/36-M.

Public Works Department,
Bombay Castle, 24th August 1942.

From

The Deputy Secretary to the Government of Bombay,
Public Works Department.

To

The District Magistrate,

Subject:- Rationing of Diesel Oil Supplies to the Public Electricity Supply Undertakings.

Owing to the shortage of Diesel Oil the supply available for electric supply undertakings has for the present been cut by 25%. In order that important industries for war purposes, pumping of water supply, etc., should not be interefered with it is necessary to ration the supply of oil on the respective importance of the supply undertakings. This has been done provisionally and a statement is attached showing inter alia the classification and the hours for which each undertaking in the district of should be allowed to supply current. Orders under the Defence of India Rule 81(2)(a) should be issued by you immediately on the undertakings mentioned in the statement in the form attached herewith and copies of those orders should be sent to Government and to the Electrical Engineer to Government.

2. Efforts will be made to keep the undertakings supplied with oil in accordance with the classification shown against them in the statement referred to in the preceding paragraph, the last column of which shows the amount proposed to be allotted in each case on the basis of the usual consumption. If any undertaking is able to run for longer hours on this rationed supply or is willing to run on other oils or fuel it should be asked to apply to Government for the necessary permission.

3. Where other hours than those shown in column 4 of the statement are found more suitable these may be fixed to suit local conditions after consulting the Company concerned provided they do not exceed those shown.

By order of the Governor of Bombay,

R.H. HAMMETT

Deputy Secretary to the Government of Bombay, Public Works Department.

.- Statement and form of order.

Copy, with copies of the statement and the form of order to the Commissioner concerned and the Electrical Engineer to Government for information.

Office of the District Magistrate,
Dharwar, 20th August 1942.

O R D E R.

Whereas in the opinion of the District Magistrate, Dharwar it is necessary to regulate the supply of electrical energy in Dharwar as there is an acute shortage of crude oil;

Now, therefore, in exercise of the powers conferred by rule 81(2) (a) of the Defence of India Rules, the District Magistrate, Dharwar hereby directs that electrical energy should not be supplied to anybody in the limits of Dharwar City, and suburbs between 2 A.M., and 2 P.M., from the 22nd August 1942 until further orders without the special permission of the District Magistrate and that all motive power installations should run between 2 P.M. and 6 P.M. only from the aforesaid date.

CON-R/42. 20th August, 1942.

The Electrical Engineer to Government,
Public Works Department,
B o m b a y.

Sir,

Re: Restriction in the hours of electric supply.

We beg to inform you that our stock of fuel oil is very low and is likely to last for about a week. We were expecting a tankwagon consignment during the last week; but uptill now no intimation has been received about its despatch. Besides, due to the difficulty recently experien in the railway transport, we do not expect to receive the fuel oil supply in time.

In view of the above situation, the Collector of Dhar has been pleased to issue an order provisionally to supply electric energy to the town between 2 P.M. and 2 A.M. from the 22nd August 1942. We are accordingly regulating the supply in the said manner from that date so that with the existing stock of fuel oil we may be able to pull on for a longer period.

A copy of the Collector's Order is enclosed herewith for your information.

We have the honour to be,
Sir,

Public Works Department, Bombay.

Subject:-Hours of supply of Electrical Energy for Dharwar.
Reference:-Your No.6109/36-El of 5-2-44

Though the political distrubances are now on the decline, it has been represented that the District Head Quarters Town of Dharwar being also an important educational centre needs supply of electrical energy for 15 hours. The Principal, Karnatak College Dharwar writes that - electricity is essential for purposes of demonstrations during lecture periods and for Laboratory Experiments which begin at 5-0 P.M. If this can be allowed, and the supply of energy is curtailed, to 12 hours the Municipal street lights cannot burn later than 7-30 P.M. In this connection the President of the Dharwar Municipal Borough states that much inconvenience will be caused to the Public as the town will have to go without electric lights for 3 hours especially during dark nights and that the curtailment might ledd to commission of thefts and burglaries. To safeguard against such dangers and to afford facilities to the working of the college it is recommended that the present supply of electricity for 15 hours per day for Dharwar Town may be allowed to continue.

Office of the Dist. Magistrate,
Dharwar, 17th April 1944.

Order.

In supersession of all the previous orders issued from this office regarding the hours of supply of electricity to Dharwar town, the special concession granted to supply electrical energy for fifteen hours, in view of the disturbed conditions, is hereby withdrawn and the hours of supply are reduced to 12½ hours, as the situation in the district is at present quiet. Therefore, in exercise of the powers conferred by clause (a) of sub-rule (2) of rule 81 of the D.I.R., read with G.N.H.D.(political-war) No.S.D/W-3401 dated the 19th December 1941, the District Magistrate, Dharwar, hereby directs that with effect from 1st May 1944, the Dharwar Electric Supply Company shall not supply electrical energy between the hours of 5 A.M. and 4-30 P.M. to any person without the special permission of the District Magistrate, Dharwar.

Extracts from file 1932/36, dealing with the ~~maximum~~ question of general revision of the present classification of Electricity Supply Undertakings run on diesel oil for the purpose of rationing of diesel oil.

.....

Para.1 and Para.2(3) of the Dy.Secy's note, dated the 24th May 1944.

1. It does not seem necy. to review the whole classification. The classification already made appears to be fair enough and not many complaints have been recd. In a few cases, due to special circumstances it has been ~~found~~ found necy. to change the original classification. Individual cases may therefore be treated on their own merits.

Dharwar - p 31

2.(3) The College wanted el. supply for laboratory purposes from 3 p.m. onwards. The D.M. has already fixed the hours of supply so that ely. is available from 3.30 p.m. onwards. This would probably satisfy the needs of the College.

****

Secy. (Irrigation)'s note, dated the 25-5-44.

I agree generally with the views of the Dy.Secy. (I & R) and do not consider that any general revision is necy. The particular cases dealt with above may be commented on by the El. Engr. to Govt. before final orders are passed and that officer may also give his views on the question of general revision.

In my opinion Rander deserves no consideration at all.....

all, the Coy. has already been treated far too favourably.

****

Paras.2 and 3(3) of the El. Engr's memo.No.LRM.31/1326, dated the 22-6-44.

2. I agree to para.1 of the Dy. Secy's note on page 25 ante.

3. (3). Dharwar - I agree with the Dy. Secy. that the present hours of supply as adjusted by the D.M., would meet the requirements of the College.

El. Br.

Submitted P.W.D.

2 The extracts within pertain to the revision of the present classification hours of supply of electrical energy by the Dharwar Electric Supply Coy. Ltd. VR.30/6.

3. The El. Supt. to Govt agrees with the D.S. that the present hours of supply as adjusted by the D.M. would meet the requirements of the College. In other words no change is considered necessary in the present classification. The draft letter may issue if approved.

No.562
Karnatak College, Dharwar
21st June, 1944.

To

The District Magistrate, Dharwar.

Subject:-Period of Electric Supply in Dharwar.

Sir,

With reference to your letter No.P.O.L.S.R. 143 of 25-5-1944, I have the honour to state that electric Supply is essential for Lecturing and Practical work of the Science classes in the Karnatak College. Since the college meets at 11 A.M. and the Practical work begins early in the afternoon, our work will suffer if electric current is not available then and the prescribed courses cannot be completed.

I find that Dharwar is included among stations of the C class and therefore the hours of supply have been restricted to twelve hours and a half. I would suggest however that Dharwar, being a District Town and having among other institutions a Government Science College teaching upto B.Sc. and M.Sc. classes, should be treated as an important place and included among stations of the B class so that electricity would be available and the change for a longer time will satisfy the urgent needs of our college and also of the public.

Regarding the question of increasing the hours of supply of electricity, the chief difficulty seems to be the shortage of crude oil required for the engines. Dharwar is given a fixed quota of seven and half tons of oil per month and with it the period of supply cannot be longer than twelve hours and a half. The town of Hubli is given a quota of 14 tons of oil per month required for its normal period of electric supply. At present, however, the Power House engines in Hubli are not in good working order ad the actual period of supply is far shorter than the period allowed by Government. Further, electricity supplied there only to a part of the town and not for the whole as was intended at the time of fixing the quota. The amount of oil now required in Hubli is only 5 tons. This leaves 9 tons of oil from the amount sanctioned per month for that town.

The question of increasing the period of electric supply is under consideration of Government. In the meanwhile, it would be possible to divert a portion of the surplus amount of oil unused in the Hubli Power House to the Power House in Dharwar so that the period of electic supply could be increased without immediately asking for more oil than is at present allowed for the District of Dharwar as a whole. About 3 tons of oil in addition to the present quota of Dharwar would suffice the purpose. This arrangement itself can go on until the scheme of installing new engines in the Hubli Power House is completed and it would take about six months. By that time, the Government will come to a decision about the question of increasing the duration of electric supply in Dharwar and it is expected that there would be no further need of the diversion of oil from Hubli to Dharwar.

I therefore request that you will be good enough to move Government (i) to include Dharwar among stations of class B and (ii) to allow you in the meanwhile to reappropriate 3 tons of oil for the use of the Dharwar Electric Power House so that the period of electric supply could be increased as required.

Your most obedient servant,
Sd. A.C.Faren
Principal,
Karnatak College, Dharwar.

I think that the requests of the Principal, Karnatak College Dharwar should be considered in so far they relate to the College only. As already pointed out the hours of supply have been so fixed that the College can get el. current for laboratory purposes from 3.30 pm onwards. The Principal has also stated that the laboratory work starts early in the afternoon. There is therefore no valid

reason why the increased hours should be given to Dharwar. The DM may be informed that after careful consideration Govt has decided to retain Dharwar in class C and as the el. supply position is not likely to improve in the near future the College Workshop will have to be satisfied with the supply that is available from 3.30 pm onwards. It is considered that the needs of the College have been reasonably met with.

General Committee resolution No.83 dated 18/9/1944.

Proposed by Mr. B.S.Patil.
Seconded by Mr. A.A.Kittur.

Read Collector's letter No. Mun.D. 512 of 29/7/1944 and letter of the Dharwar Electric Supply Company dated 6/9/44 and resolved that a settlement be made with the Electric Company regarding the dispute about the minimum charges, on the lines contained in the above letter, that were pending a long since; and further resolved that the orders of the President dated 9/8/44 for paying an advance of Rs. 2500/- to the said Company be approved, and in future, the Municipality should see that the maximum lighting hours should be utilised while giving the lighting time-table to the Company.

Further resolved that the District Magistrate be requested to move the Provincial Government to increase the hours of lighting from 12½ hours to 15 hours; in the least, and to grant permission to supply new lights as necessity arises, as a great amount of inconvenience is caused to the public, and its safety is endangered in these days of shortage of kerosene.

No amendments. Put to vote. carried nem con.

Dispute between. Minimum charges & payment of --
.....

No. 2133.

Municipal office,
Dharwar, 25th September 194

From

S.S.Matti, Esq., B.A.LL.B.,
President, Municipal Borough, Dharwar.

To

The Collector of Dharwar.

Sir,

1. In referring to your letter No. Mun.D. 512, dated 29th July 1944, on the subject noted above, I have the honour to state that the Municipality has, on considering the matter, decided to make a settlement with the Electric Supply Company, Ltd., Dharwar regarding the dispute about the payment of minimum charges, on the lines contained in your above quoted letter. A copy of the resolution No. 783, of 18/9/1944, passed by the Municipality in this connection is herewith enclosed.

2. Finding that the Public is highly inconvenienced and the safety of the Public highly endangered, owing to the want of sufficient lighting the Municipality has, also decided to request you kindly to move the Provincial Government to increase the hours of lighting from 12½ hours to 15 hours in the least. A large number of student population resides here; and as such, they require lights early morning for their studies. A number of other representations also have been received complaining about the curtailment of hours which involves public danger.

3. It is further requested that you will kindly move the Provincial Government to give permission to supply new lights as and when necessity arises. It may not be out of place to mention here that the inconvenience is more felt, especially in these days of shortage of kerosene. One more point which I would like to bring to your notice is, that the Municipality has been paying the least minimum charges, though with no material benefit for it.

4. I may be permitted to mention that on enquiries I learn that about one additional ton of crude oil will be sufficient to generate energy for 15 hours a day, which, I hope, will be spared, as so much stock is lying at Hubli, which is not required there.

5. For all these reasons, I would request you kindly to move the Government to accord sanction to the proposal of the municipality.

P. W.D.

Submitted.

1. The following two requests have been made by the Municipal borough, Dharwar

(i) The present hours of supply of electrical energy by the Dharwar Electric supply Co may be raised from 12½ hours to 15 hours,

and

(ii) New lights may be published as necessity arises as great inconvenience is caused to the public & its safety is endangered in these days due to shortage of kerosene.

Reg (i): The Dharwar Electric supply Co is classed 'C' permitting 12½ hours supply. In view of the disturbed political situation the hours were raised to 15 hours since Oct 1942 but in consequence of the improvement in the political situation they were reduced to 12½ hrs in April 1944 which are the present hours of supply & the D.M. adjusts them each month to suit local conditions. On the recent revision of the classification it was decided that no change is necessary in the present classification of the Dharwar Electric supply Co - vide proceedings on WP 59-43 ante. In the circumstances it is for consideration whether the request of the Municipality to raise the hours of supply from 12½ hours to 15 may be negatived. There is no new point in the request.

2. Reg (ii) - The request is not

quite clear. Presumably the many refers to new lights required for extension of street lighting which are not considered essential under the earlier order. Even if the many refers to new lights to public for residential purposes supply of electricity to these lights are can not be permitted under the earlier order. The D.M. may perhaps be informed that this request of the many is vague but in any case supply of electricity for extension of street lighting or for new lights for residential purposes can not be permitted under the ~~the~~ earlier order.

29/11/44

D.S. (Main)

610%/36/30157

I think 12½ hours are quite liberal. The conditions in Dharwar are similar to those in the other 'C' class towns and it would not be justifiable to make an exception. I however feel that the hours of supply could be arranged in a more convenient manner. The supply after 12 midnight or 1 am. is hardly required by anybody and it would be definitely useful to give some supply in the early morning hours instead. It is also not clear why the hours of supply have to be changed every five or six days. This must be causing some confusion. Generally one set of hours for the bright half of the month & another for the dark half should be enough. It is really for the D.M. who knows the local needs, to fix the hours suitably.

The other regard for new lights cannot obviously be

No: 1594
Karnatak College, Dharwar.
24th July, 1945.
15th August 1945 TLP

To
The District Magistrate,
Dharwar.

Subject:- Period electric supply in Dharwar.

Sir,

In continuation of my letter dated the 31st January,1945, I have the honour to invite your attention to the necessity of providing electric supply for the Science Departments of the Karnatak College during working hours of the College, i.e., from 11-15 a.m. to 6-30 p.m. The supply now begins at 3-30 p.m. here while the College Lectures and many of the practicals begin at 11-15 a.m. and 12-0 noon respectively. The present electric supply is limited to a total daily period of twelve hours and a half on an average and I realise that in these circumstances it is not possible to change the hours of supply to suit the needs of the College.

In not granting the request of the President, Municipal Borough, Dharwar, to increase the hours of supply, the Government observed that the present average period of supply is considered suitable for Dharwar where conditions are similar to those of other 'C' class towns as regards population, business etc., an important factor in the case of Dharwar is being overlooked in this matter. Dharwar has a big Government College (containing about one thousand students) teaching science upto B.Sc. and M.Sc. Degrees, and supply of electricity is required for teaching purposes during lecture hours and also for laboratory work. The Science Departments are working with a great handicap at present for want of electric supply during lectures and many periods of practical work. The teaching and also practical work suffers in efficiency on that account. Many of the experiments illustrating fundamental principles and applications cannot be demonstrated during lectures to the whole class as electricity is required for such purposes. Further, descriptive diagrams and illustrations which have to be studied by the students can be properly discussed in the class, only if an epidiascope can be used for projecting the same. But the epidiascope requires electric supply. Even for the usual Laboratory working, electric light is necessary as many of the rooms have insufficient light and it means a great strain on the eyes of the students especially in the Physics Laboratory where they have to read minute scales and divisions every day. The difficulties are enhanced in these days of cloudy weather. For convenience of working in shifts, practical work is also taken as early as 8-30 a.m. on some days. The rooms are almost dark at such time in the monsoon season and even in winter on account of the sun rising about or after 8-0 a.m.

for the Local Power House,

I understand that the present supply of crude oil for 12½ hours working is 8 tons and that for 24 hours' working an addition of only 2 tons is necessary. The total load does not vary much with the period of supply and is now being concentrated in a short period of five or six hours a day in the afternoons and evenings (i.e., between 3-30 p.m. and 9-0 p.m.) instead of being distributed over the whole day as happens when the supply is throughout day and night. Thus only two tons of more oil could add 11½ hours of Electricity with enormous benefit to the College and Public. Further, there is a surplus of oil from the quota reserved for Hubli town and this could be utilised with the permission of the Government to provide for the additional amount of oil for Dharwar required on account of the increase in the period of supply, and therefore the total quota of crude oil for the Dharwar District need not be increased.

I hope you will appreciate our special difficulties in the matter. Scientific and Technical education is being pushed forward and a large number of facilities are given in this respect. It is therefore consistent with that policy that facilities are given to this College in the matter of electric supply during its working hours for Scientific training which is the basis for higher Technical Training. Since the oil situation has much improved, it will not be difficult to obtain the necessary permission for reappropriation of oil as required. I therefore request that you will be good enough to

P.T.O.

consider the matter and again to represent to the Government pressing the necessity of increasing the period of electric supply in in Dharwar at least by four hours and a half if not for the whole day so that the supply will be available for this College from 11-0 a.m. without break.

Your obedient servant

S. Bagoji

Principal,
Karnatak College, Dharwar.

Sir,

RESTRICTION ON THE SUPPLY OF ELECTRICAL ENERGY.

Under the war time restriction orders, our undertaking has been placed under class 'C', restricting thereby the normal 24 hours supply to 12½ hours per day.

Now that the war has ended and the supply position has improved, and would be very much easier before long, we beg to approa you with a request to please raise this undertaking from class 'C' to class 'B', permitting electric supply from 12½ to 18 hours per day.

Under the existing restrictions, we are unable to give full night supply, and the general consumers & public institutions are greatly inconvenienced with the result that they have to fall back on the poor resources of kerosene oil, which is a scarce commodity now, while the supply position today is easy enough to permit us to supply electricity for 18 hours per day.

Moreover, the gradual relaxation of the restrictions, as i requested, would not only assist the undertaking in making its posi easier to meet the continued enhanced expenditure but would also a in preparing itself to meet the post war development at no distant

We request, therefore, that we may please be classified un 'B' category at an early date to give 18 hours electric supply per d

Thanking you,

Your obedient servants,

For A. E. Cos & Desai

The Collector of Dharwar,
DHARWAR.

Sir,

RESTRICTION ON THE SUPPLY OF ELECTRICAL ENERGY.

The war being over and the supply position having become easier, we have approached the Government with a request to raise our power station from category 'C' to 'B', i.e. to permit us to supply electricity for 18 hours per day, and our application to Government in this connection is enclosed herewith in duplicate.

In consideration of the great inconvenience caused to the consumers and public institutions due to the partial supply during the night, when kerosene oil is so scarce, we beg to request that you would be pleased to recommend to the Government for according permission.

It is needless to add that this relaxation would also to some extent help the undertaking in making it easier to meet the much enhanced expenditure and also prepare itself to meet the post-war development in the very near future.

Thanking you,

Your obedient servants,

THE DHARWAR ELECTRIC SUPPLY COMPANY LIMITED.

Dharwar,

Ref: 10/P/45. 17th October, 1945

The Dy. Secretary to the Govt. of Bombay,
Public Works Dept.,
BOMBAY.

Dear Sir,

Re:- Restricted hours of supply of electrical energy.

As per order No. P.C.A.S.8.685, dated the 15th October 1945, from the District Magistrate, Dharwar, we give below the non-supply hours of electrical energy during the month of November 1945.

Date.	Non-supply between the hours.	Off hours per day.	No. of days.	Total hours.
1 to 4.	1-00 A.M. to 4-30 A.M. 3.5) 6-00 A.M. to 2-30 P.M. 8.5)	=12	4	48
5 to 19	2-00 A.M. to 4-30 A.M. 2.5) 6-00 A.M. to 2-30 P.M. 8.5)	=11	15	165
20 to 30	1-00 A.M. to 4-30 A.M. 3.5) 6-00 A.M. to 2-30 P.M. 8.5)	=12	11	132
		Total	30	345

Total hours in the month 30 x 24 = 720

Less hours non-supply 345

Average hours of supply during the month at 12½ hours per day for 30 days. 375

Elec Supply

32323

Copy of letter No.2355 dated 1/4-10-1945 from the President Municipal Borough Dharwar to the District Magistrate,Dharwar.

I have the honour to state that the hours of supply of electric energy for this town have been restricted only to 12½ hours in view of the war conditions. Owing to such restricted hours, it was already pointed out that many of the public and other consumers such as flour mills, rice mills, colleges and various other institutions are affected by the short hours of supply. I am informed that the Principal of Karnatak College,Dharwar has already represented his grievances. This Municipality is very much handicapped in the restriction of the current to only 12½ hours daily.

Now that the war has been concluded, it may be possible for the Government to supply more quantity of Diesel Oil to the Electric Companies. I, therefore, request you to kindly move the Government Authorities to allow them to supply electric energy for at least 18 hours to begin with, under the circumstances.

No.P.O.L.S.R.147
Dharwar,15/10/1945.

Copy submitted to the Deputy Secretary to the Government of Bombay, in continuation of this office Nos.P.C.L.S.R.143 dated 14th September 1945 and 2nd October 1945.

2. In view of the reasons given by the President, the request may be favourably considered.

District Magistrate,Dharwar.

Subject: Revision of the hours of supply of electricity undertakings run on diesel oil.

Owing to the shortage of diesel oil, the hours of supply of various electrical undertakings run on that oil in this Province were restricted and the undertakings classified into 4 categories, vide Government Letter No.1932/36-M, dated the 24th August 1942. As the supply position regarding diesel oil has now improved to some extent, Government is pleased to change the classification in respect of the Electricity Supply Undertakings as shown in the subjoined statement:-

Name of Undertaking.	Present classification	Revised classification	Remarks.
District Ahmedabad.			
1. The Viramgam Electric Supply Company.	"C"	"B"	The District Magistrate, Ahmedabad should take into consideration the grievances of the Company set forth in their letter No.GTB/110,dated the 27th October 1945, while fixing the actual hours of supply according to the revised classification.
District Ahmednagar.			
2.The Sangamner Electric Supply Company.	"D"	"C"	
District Belgaum.			
3.The Nipani Electricity Company Limited.	"D"	"C"	
District Dharwar.			
4.The Dharwar Electric Supply Company.	"C"	"B"	The District Magistrate, Dharwar should take into consideration the needs of the Karnatak College while fixing the actual hours of supply according to the revised classification.
5.The Gadag Electric Supply	"D"	"C"	
District East Khandesh			
6.The Chalisgaon Electricity Company.	"C"	"B"	

Name of Undertaking.	Present Classification.	Revised.	Remarks.
		District East Khandesh	
7. The Jalgaon Electric Supply Company Limited.	"C"	"A"	The Company should be allowed to give 22 hours supply to all its consumers in Jalgaon.
8. The Savda-Faizpur Electric Supply Company.	"D"	"C"	In view of the revised classification, the concession granted in Government Endorsement No.6855/36-El. dated the 6th June 1944 is withdrawn.
		District Kaira.	
9. The Nadiad Electric Supply Company, Limited.	"C"	"B"	The District Magistrate, Kaira, should take into consideration the grievances of the Factory owners and Workshop Proprietors while fixing the actual hours of Supply according to the revised classification.
		District Kolaba.	
10. The Mahad Electric Supply.	"D"	"C"	
		District Nasik.	
11. The Sinnar Electric Supply.	"D"	"C"	
12. The Yeola Electric Supply Company.	"D"	"C"	
		District Poona.	
13. The Baramati Electric Supply Company, Limited	"D"	"C"	
14. The Junnar Electric Supply.	"D"	"C"	
		District Satara.	
15. The Panchgani Electric Supply Company, Limited.	"D"	"C"	
16. The Wai Electric Supply.	"D"	"C"	
		District Sholapur.	
17. The General Engineering Corporation, Limited, Barsi.	-	"C"	The Company Supply is permitted to give supply for 12½ hours instead of 10 hours as at present.
		District Surat.	
18. The Udwada-Wapi Electric Supply.	"D"	"C"	The hours at Udwada only should be increased to 12½, the present hours at Wapi being retained, viz.6 hours.
		District Thana.	
19. The Bassein Electricity Company Limited.	"D"	"C"	
20 The Palghar-Navli Electric Supply.	"D"	"C"	
		District West Khandesh.	
21. The Nandurbar Electric Supply Company.	"D"	"C"	

2. The Electrical Engineer to Government is requested to take action to increase the quota of diesel oil in respect of each of the above-mentioned undertakings.

3. You are requested to issue orders fixing the hours of supply of the undertakings within your respective District in consultation with the Supply Company concerned so as to suit local conditions, and to forward copies of the same to Government and to the Electrical Engineer to Government for information.

4. The above orders are in supersession of all orders issued on the subject from time to time in respect of the above-mentioned undertakings.

By order of the Governor of Bombay,

G. N. Pandit,
Deputy Secretary to the Government
of Bombay, Public Works Department.

Subject: Revision of the hours of supply of electricity undertakings run on diesel oil.

No.POL.685 Letter. Dharwar, 1/7/1946.

To

The Deputy Secretary to the Government,
Public Works Department, Bombay.

P.170

In forwarding herewith a copy of letter No.697 dated the 27th June 1946, from the Principal, Karnatak College Dharwar, I have to state that the Government have recently changed the classification in respect of the Dharwar Electricity Supply undertaking from 'C' to 'B' in their P.149 letter No 1932/36-El(II) dated the 7th December 1945 and accordingly, I have passed orders under D.I.R. directing the Electricity Supply Co., to supply energy from 11-45 A.M to 6-45 A.M in this office order P.165 No.POL.685 dated the 7th Feb. 1946. Now, the Principal, Karnatak College Dharwar requests for electric supply for the purpose of Science experiments from 8-00 A.M. The suggestion of the Principal to supply current for the use of the College from early morning by stopping the supply for about four hours after midnight cannot be accepted as this arrangement of stoppage of current during the night, would cause much inconvenience to the public and also to the Hospital. If the entire city is left in darkness after midnight, for hours together without street lighting, especially during dark nights, the public safety will be endangered.

I therefore recommend that the Government may please be moved to change the classification from 'B' to 'A' and allow the Dharwar Electric Supply Co. to supply energy for the whole day and night.

Chakrabarti

BB.

District Magistrate, Dharwar.

6108/36/26153.

Copy of letter No.697 dated 27th June 1946 from the Principal Karnatak College, Dharwa.

I have the honour to state that under instructions of Govt. we are making additional admissions to Science classes and therefore practical work has to be taken in two or three shifts. Batches of students have to work in Science laboratories early in the mornings from 8-0 clock and electric current is needed for their practical work and also for lighting purposes as it is too dark inside the laboratiesto work with delicate instruments and minute scales etc.

According to the present hours of electric supply there is no current between 6-45 A.M and 11-45 A.M. But as the practical work needs electric current, it is necessary to provide for the electric supply in the mornings. I therefore request that you will be good enough to arrange that electricity would be available for college purposes in the monrings by stopping the electric supply for some hours after midnight as was done for one or two years before. In case no such adjustment is possible I would request you to write to the Govemment (Public Works Department) to extend the duration of electric supply in Dharwar so that electricity wuld be available from 7-30 A.M onwards without break throughout the day.

The College was opened on 20th June 1946, and the Laboratory work in the mornings has to begin very soon. You are therefore particularly requested to treat this matter as very urgent.

P.W.D.

El. Br. (II).

Submitted with ref. to item No. 4 in para. 1 of G.L. No. 1932/36-El.(II), dated the 7-12-45, and the D.M. Dharwar's Order No. POL. 685, dated the 7-2-46.

No. 1043
Dharwar, ~~31st~~ 20th July, 1946.

To

The Deputy Secretary to the Government,
Public Works Department, Bombay.

Subject:- Revision of hours of supply of Electricity in Dharwar.

Sir,

I have the honour to invite your attention to the letter No.POL/685 of 1-7-1946 addressed to you by the District Magistrate, Dharwar, and to request that you will move Government to take early steps to change the classification of Dharwar from 'B' to 'A' and allow the Dharwar Electric Supply Co. to supply energy throughout the whole day and night as recommended by him.

Under instructions from Government (Educational Department) I have made large number of additional admissions to the Science classes and practical work has to be taken in two or three shifts. Some batches of students have to work in the Science Laboratories early in the mornings from 8-0 a.m. Electric current is therefore needed for their practical work and also for lighting purposes as it is too dark inside the Laboratories at that time.

Since the College has no electric installation of its own, we have to depend on the Electric Supply from the Dharwar Electric Supply Co. which had been supplying electricity throughout the day and night before the hours of supply were restricted about four years ago. At present the hours of supply are extended to the period from 11-45 a.m. to 6-45 a.m. the next day. Electricity will be required for the College as given above from 7-0 a.m. onwards and it means the supply should be throughout the day without break.

I therefore request that you will be pleased to appreciate the necessity for the electric supply in the mornings and to allow, by changing the classification of Dharwar from 'B' to 'A', the Dharwar Electric Supply Co. to supply electricity for the whole day and night.

Your obedient servant,

Sd/- C. Afonso

Ref:Your letter No.6108/36-El(II) dated the2nd September 1946.

The Dharwar Electricity Supply Co.,has already been intimated of the Government order and was asked to communicate the date on which the supply Co.,will supply energy continuously for the whole day and night. But the Company has sent a letter stating that its management has taken up the overhauling of one of the generating sets and that the other two sets which are already over-strained would not be able to take the strain of 24 hours continous working and requests that some time may be given for overhauling the engines. The Company will be again expedited to complete the overhauling and arrange to start supplying energy for all the 24 hours. On receipt of report from the Supply Company the restriction order passed from this office will be withdrawn and the fact communicated to Government.
